

Summary of Findings

By: Biswajit Mohapatra

1. Key Insights from Data Analysis: -

Order and Sales Overview

- **Total Orders:** 15,000
- **Total Revenue:** ₹38+ Lakhs
- Most orders were either **pending, delivered, or shipped**, and all three made up about **one-third each** of the total.
- **Average order value** was similar across statuses:
 - ❖ **Delivered: ₹254**
 - ❖ **Shipped: ₹256**
 - ❖ **Pending: ₹252**
- **Revenue by month** showed spikes in some months like **May 2020, August 2022, and March 2025**, possibly due to campaigns or high demand.

Customer Behaviour

- **Total Unique Customers:** 7,334
- **Repeat Customers:** 4,402 (about 60%)
- **One-time Buyers:** 2,932
- **Loyal Customers** (who bought 5+ times): 816
- Top customer spent **₹2,798** over 7 orders — showing that some customers bring high long-term value.

Payment Status and Issues

- **Payment Success Rate:** 73.12%
- Payments are almost equally split into:
 - ❖ **Completed: 33.27%**
 - ❖ **Failed: 33.35%**
 - ❖ **Pending: 33.37%**
- **Big Concern:** Failed payments resulted in **₹12.7+ Lakhs** in lost revenue.
- **Bank transfers** had the highest failure rate, even though they brought in the highest average payment value.

2. Customer Retention Insights: -

How Many Customers Return?

- We tracked how many customers from each month continued to buy in the months after.
- **Average retention drops sharply** over time — starting at 100% in the first month and dropping to around 1.2% by month 60.

Year-by-Year Retention Trends

- Good news! Customer retention has been **getting better each year**:
 - ❖ **2020: 12.76%**
 - ❖ **2021: 15.60%**
 - ❖ **2022: 19.40%**
 - ❖ **2023: 22.99%**
 - ❖ **2024: 25.71%**

- This shows improvement in customer experience or retention efforts over time.

Active Customer Drop-Off

- Active customers per year have **fallen sharply**, from 5.9K in 2020 to just 200 in 2025.
- This means fewer customers are coming back or being acquired in recent years.

3. Recommendations: -

Fix Payment Issues

- Look into why **bank transfer payments fail the most**.
- Add automatic retries or alternative payment suggestions when a payment fails.

Keep Customers Coming Back

- Offer **loyalty rewards** or **cashback for repeat orders**.
- Send **reminders and personalized offers** to customers who haven't returned in a while.

Smarter Targeting

- Focus marketing on **loyal and returning customers**, who are more valuable in the long run.
- Use data from regions or states to run **location-based promotions**.

Final Thoughts: -

Your data shows a growing customer base early on, but **recent years saw a drop-in activity and retention**. Improving **payment success** and building **customer loyalty** could help ALT Mobility grow faster and retain more customers.
